SIC USA and Kehua Tech Partner to Bring Kehua String Inverter to North American Market

SIC USA to be the official distributor for Kehua Tech's solar inverter and systems.

Figure 1: Kehua Tech's SPI-BHV Series String Inverter

Xiamen, China and San Jose, CA -- SIC USA and Kehua Tech announce today a partnership that will bring Kehua Tech's solar inverters and systems to the North American market. SIC will sell Kehua Tech's *SPI-BHV Series* String Inverters, and will be able to provide technical support for their products. SIC USA currently is the distributor and service provider of the SATCON line of PV inverters in North America. Kehua Tech started its business with an Uninterruptible

Power Supply (UPS) product, they have expanded to data centers, and also recently entered into renewable energy. The SPI-BHV String Inverter is equipped with standard RS485 communication port and optional WIFI module, with menu interfaces for Chinese and English. Kehua has an app to monitor the inverters which can be found on their website. SIC USA will be able to provide technical support on Kehua Tech products in North American, and Kehua Tech has a dedicated 24/7 support team in China.

About SIC USA

SIC USA is the supplier of Satcon solar inverters in North and Central America, as well as parts and service. The company has the expertise and knowledge to help with the most complex solar projects. SIC USA has assembled an elite team of PV professionals ready to serve. From phone support and diagnostic services to on-site service and priority parts replacement, SIC USA has a flexible suite of support services specifically designed to keep Satcon inverters operating at maximum performance. SIC USA, which was founded in 2013 is a wholly owned subsidiary of Skwentex International Corporation (SIC) in Taiwan. SIC USA aims to provide the highest level of service and value to its customers to ensure that their investments continue to perform at the highest levels through their entire lifespan.
